DAILY MESSAGE OF SAINT JOSEPH, TRANSMITTED IN THE MARIAN CENTER OF FIGUEIRA, MINAS GERAIS, BRAZIL, TO THE VISIONARY SISTER LUCÍA DE JESÚS

A soul that believed in God, in His infinite Existence, could not understand the mysteries of a prayer, and it questioned the Lord, saying: *"Lord, I know that You exist and that You are the God of life and of eternity; but I know there are laws that move this life and that free will exists, which gives us the freedom to be in it. As it is this way, Lord, I do not understand the mystery of prayer and I cannot manage to believe that a Rosary or a simple dialogue with You could transform the laws of the Earth."*

As the Lord felt the sincerity of its questions, He responded, saying: *"Little soul, in truth, what you really ignore is not the power of prayer, you ignore My Power and My Love for you. You ignore your ability to unite with Me and the authority that I give you when you pray in My Name, because you are a dear and beloved child. And just like a child who asks for things from their father and receive what they need from him, in this same way, I, Who can do all things, also give My children what they need."*

However, the mystery of prayer is still very profound, because I do not expect you to ask Me for just what you need to remain in the world as souls of the world. What I expect is that you ask for that which makes of this world a part of My Kingdom. And when you yield to Me and open your hearts, I grant you forgiveness, I reveal the Love hidden within your essences, and I give you the authority to transform laws and life, as do the angels and the archangels by recreating My Creation.

It is not only the mystery of prayer that is unknown to you, little soul, but the mystery of your own life and the mystery of My Love are still unknown to you. For this reason, even though you do not understand, pray and surrender your lack of understanding at My Feet, at the foot of My Altar, for when I find an open heart in you, I will allow you to not only understand, but to know and experience all these things."

Through this dialogue with God, children, may your souls be inspired to pray and to cry out each day for the transformation of the world.

You have My blessing for this.
