DAILY MESSAGE OF SAINT JOSEPH, TRANSMITTED IN THE MARIAN CENTER OF FIGUEIRA, MINAS GERAIS, BRAZIL, TO THE VISIONARY SISTER LUCÍA DE JESÚS

X - Find Yourself Within the Eyes of God

A soul that aspired to fulfill the Divine Will, but constantly felt itself unworthy and incapable of doing so in the face of all the great things that the Lord called them to live, questioned His Sacred Heart for feeling too small and poor to fulfill His Work, and said: "Lord, great is Your Plan and it is full of deep Love for humanity and for all Creation. I contemplate Your Will and I am amazed by Your Mercy, but when I try to manifest what You want, I feel incapable before so many imperfections and difficulties. So I look at the world and at so many precious souls that You have created, and those whom You can count on to manifest Your Work, and I ask myself: why did You call on me?"

And contemplating this soul with Love, seeing them transparent and crystalline, just as He created them, the Lord responded: "Little soul, see your reflection in My Eyes. Do not look at yourself in the mirrors of the world, but rather in the mirror of My Eyes. What the mirrors of the world can show you are limitations and defects, imperfections and perhaps skills, but what you truly are, you will only see if you look at your reflection in My Eyes.

I see you just as you are. I know of the potential that lies within you, I know of your trajectory since the beginning, I know what you were created for and for what your essence and consciousness were formed. Therefore, little soul, it is My Voice that you must hear, and not the voices of the world, or the confused voice of your mind, which is so often lost through the stimuli of this Earth. Open your inner hearing and listen to My Will, knowing that it corresponds to you and to no one else.

For each being of this world, I have a perfect Will, a path through which they will reach Me. And this path is not the one known to you; oftentimes it is not the one that you already know how to walk. This path is the one that will forge in you what I need, it is the one that will reveal to you what I see when I contemplate your little soul, for it will allow to emerge within your consciousness what you are, and the truth will take the place of the many layers with which you have covered your consciousness.

Therefore, beloved soul, when I ask something of you, do not look for your reference in the mirrors of the world. Look into My Eyes, see your real face reflected in Me and feel capable of carrying out everything that I ask of you, because My Will for you is perfect.

Open each day to discover within you that which is reflected in My Eyes: you yourself, as I see you. And it will not be vanities, nor pride or false humility that will dwell within your heart, but rather it will be Me and My Truth, the transparency and the perfection of My Thought for you."

May this story inspire you, children, to look for your references neither in that which you see of yourselves nor in the world but only in the depths of the Eyes of God. It will be there where you will find yourselves.

You have My blessing for this.

The Most Chaste Saint Joseph
