**DAILY MESSAGE OF SAINT JOSEPH, TRANSMITTED IN THE MARIAN CENTER OF FIGUEIRA, MINAS GERAIS, BRAZIL, TO THE VISIONARY SISTER LUCÍA DE JESÚS**

To be in the Heart of the Hierarchy and remain there, you must, above all things, live unity. A unity that is built with transparency and with love; a unity that is built knowing to first listen, and then speak; a unity that is built by being capable of perceiving the real value of each being and how others are an indispensable piece in the Work that God is carrying out in the human consciousness.

To be in unity is to know how to relate to others, aware of the Divine Presence in this relationship; to know that, while you speak, think, feel, act, the Eyes of God are upon you, His Presence blesses you, His Laws guide you.

To consciously place oneself in the Presence of God, in each instant of life, will be that which will distance you from the stimuli of the enemy and stop the most human aspects of yourself from being that which governs your lives. In the Presence of God, those aspects will gradually transform and be sublimated, and it is your souls and your spirits that can guide the expression of your beings.

Being in the Presence of God, you will have your heart in His Kingdom, and that Kingdom will enfold you, protect you and always safeguard you. For this reason, children, this is the great secret for remaining upon the path of the Hierarchy: to always be in the Presence of God, under His Gaze and within His Heart.

You have My blessing for this.

The Most Chaste Saint Joseph
