DAILY MESSAGE OF SAINT JOSEPH, TRANSMITTED IN THE MARIAN CENTER OF FIGUEIRA, MINAS GERAIS, BRAZIL, TO THE VISIONARY SISTER LUCÍA DE JESÚS

Learn to contemplate and adore the Blood of Christ, knowing that each drop poured out by the Lord represents His unlimited Love for each being and for life itself.

Place your eyes on the Christ of Calvary and know that His Love, even without the Cross, has already surpassed and renewed all of Creation, but His offer went further, and pouring out Blood and Water, He perpetuated the Grace of salvation and redemption for all beings of Earth and beyond it.

May your eyes, placed upon the poured Blood of Christ, grant you the understanding and the experience of that which yielding and surrender are, that which giving all for love is.

The Water that was poured by Christ represented the unlimited Mercy that, along with pouring out all His Blood, He also poured out Water in order to give all of Himself, in matter and in spirit.

Together, Blood and Water represent the mystery of a Love still not understood by humankind; that Love that you are called upon to renew and to surpass so that everything may be recreated and evolution may find a new beginning, a greater life of union with the Creator Father.

Begin, then, by contemplating within your heart the Blood of Christ and the Water that was poured out from His Body so that you may penetrate His Mysteries and they may inspire you, and lead to a more true likeness with the Love of Christ.

You have My blessing for this.

The Most Chaste Saint Joseph
