DAILY MESSAGE OF SAINT JOSEPH, TRANSMITTED IN THE MARIAN CENTER OF AURORA, PAYSANDU, URUGUAY, TO THE VISIONARY SISTER LUCÍA DE JESÚS

Give thanks to God for each moment of your life, for each word received from His Sacred Heart.

Give thanks to God for each blessing and each trial, for each experience lived on Earth, which makes you grow and give new steps on the way of evolution and of return to the Heart of the Father.

Give thanks to God for the cycles experienced as well as for the present moment, and always build with Him the steps of the future; not just your future, but the future of the whole humanity, the future of this planet with its Kingdoms and its life.

Be thankful, at each moment, because gratitude will open the correct door toward the evolutionary path for you.

Gratitude will convert the growing adversities into love, and even the harassments that come your way will, under the spirit of gratitude, be transmuted.

May your thoughts and your heart be constantly in God, in an eternal movement of gratitude toward Him. This way, child, you will find the way back to the Heart of the Father.

Your Father and Friend

The Most Chaste Saint Joseph
