DAILY MESSAGE OF SAINT JOSEPH, TRANSMITTED IN THE MARIAN CENTER OF FIGUEIRA, MINAS GERAIS, BRAZIL, TO THE VISIONARY SISTER LUCÍA DE JESÚS

After opening the doors of your heart to live the gift of gratitude, child, may your being receive the blessings from God. With the blessings of the Most High, you must strengthen your inner world, your mission in service to this planet, especially through prayer.

Each day that goes by, nations spiritually cry out for help, and the Earth's own heart makes itself heard by those who are sensitive to the love and the true necessity of this world.

Thus, pray, and pray with fervor, offering the many Graces and blessings that you have received from Heaven, in the name of those who have nothing.

Pray for the heart of Africa, in a special way, so that despite all suffering, it not lose its purity and innocence.

Africa must be the symbol of this world's rebirth. From its core, life is originated, and after everything it has learned, from its core love must be renewed and overcome.

Pray so that the nations may transcend the purifications of this time, and on top of the calvary of this world, may the beings be able to forgive and love beyond all things.

Your Father and Friend,

The Most Chaste Saint Joseph
