DAILY MESSAGE OF GLORIFIED CHRIST JESUS, TRANSMITTED IN THE MARIAN CENTER OF THE HOLY SPIRIT, CORDOBA, ARGENTINA, TO THE VISIONARY FRIAR ELÍAS DEL SAGRADO CORAZÓN DE JESÚS

Silence promises the interiorization and reflection of the consciousness.

Silence participates in communion with what is eternal and sublime.

Silence repels the superfluous and distances the soul from indifference and avarice.

Silence is receptive.

Silence shares with the souls of other beings and is intuitive in the face of danger.

Submerge yourself into silence and you will find the keys that will open the doors of the Heavens, because silence does not beg nor boast about anything.

Silence is solemn but also respectful. It attracts tolerance, peacemaking and calmness.

Silence neutralizes and distances the consciousness from fear, because silence is in tune with the Heights and protects the soul from the low planetary liberations.

Silence always constructs that which is reverent and never loses devotion.

Silence does not criticize with words nor with the mind.

Silence is elevated, for it was silence that first manifested Creation. The Word was born from the silence, because silence penetrated the Creative Mystery, and from there the Word was born, and from the Word, Life arose.

We owe all to silence, because in silence one finds resurrection and does not fear death; on the contrary, silence promotes eternal life.

I thank you for keeping silence withn your hearts!

Who blesses you,

Your Master, Christ Jesus, the Lord of Silence
