SPECIAL MESSAGE OF CHRIST JESUS, TRANSMITTED DURING THE 7th MARATHON OF THE DIVINE MERCY, IN THE MARIAN CENTER OF THE CHILD KING, TERESOPOLIS, RJ, BRAZIL TO THE VISIONARY FRIAR ELÍAS

The thread of light that unites a good mother with her child is always indestructible because between the spirit of the good child and the love of a good mother is created a tie of spiritual fraternity.

Today I ask all of My Companions in the entire world that you meditate about this in this time, about your sincere union with your mother. The good mother that God has given you embraces, the good mother protects her small child from the first years of life, the good mother listens and attends to the needs of her little one.

Today I want to leave you the symbol and the event of the birth of the Child King in Bethlehem, because between Mother Mary and Child Jesus was re-established the maternal union that had been lost in all the generations of humanity.

One of the great pains of God is the death that many mothers create in their wombs, removing the divine life that God pours in each new being that is born. For this, for those who have a mother in life, for those who do not see their mother, or for those who do not have her near anymore, I ask you for the sake of all the little and innocent ones who are not born to thank God for having had a mother, for having been between the arms of a heart donated to protect and care for your lives.

In this way dears, you will permit the banishment of the evil ideas of the enemy of wanting to take the souls that still have not been born out of My hands. Give thanks to God for your mother, remember Jesus in the arms of Mary during birth as well as in death.

The mother, of the world, is the living spirit of comfort and of protection. The enemy has managed that many children hate the fraternal relationship with their mothers. Today I ask you for the sake of those who have not been born; pray! pray from the heart! So that the unfortunate plans of the enemy may desist in the minds that materialize them.

Today My Heart is born in the manger of the New Earth. Today My Spirit rejoices for the healing gratitude that you have given to My flagellated Heart. Today My Mercy is with those who are most in need of it.

Now and always I thank you!

I bless you in God.

Under the Love of the Father, be blessed and do not tire of it.

Merciful Christ Jesus
