**DAILY MESSAGE OF SAINT JOSEPH, TRANSMITTED IN THE MARIAN CENTER OF FIGUEIRA, MINAS GERAIS, BRAZIL, TO THE VISIONARY SISTER LUCÍA DE JESÚS**

While in the Heavens, a divine event is being prepared, on Earth there are few beings who are accompanying the divine dimensions.

The celebration of Christmas, above all, occurs with the start of a new cycle, throughout all life; the Kingdoms of Nature, the elements, the stars, the time, the cosmic rays, the universe, the cosmos. Life enters into a new cycle, marked by a spiritual rebirth. It is the remembrance of the moment in which the Creator transformed all laws so that He Himself could become a material and human creature.

God the Father changed into Father and Son, manifesting the mystery of the likeness with His Heart. As from that event, nothing remained the same, and the laws of spiritual and material life entered a new cycle.

After the death and resurrection of Christ, that change in the laws continued on its course, because the Creator did not manifest on Earth just to give a chance of salvation to human beings; He came to awaken an archetype of life, institute new laws, and send a sign of its renewal into the cosmos.

In this way, He gave humankind a path and an example to imitate, to follow, to renew throughout its whole evolution.

Each Christmas, when nature and material and spiritual life enter into a new cycle, that offering of God is renewed and awakens a Christic unity with the Father, within beings who are open of heart.

Year after year, throughout the centuries, the enemy of God tries to distract souls and cause them to become lost, but his craft does not reach divine laws, and the impulses of the Creator are unchangeable during each new cycle. The awakening depends on the will, attention and openness of each being.

Each cycle that goes by, these laws draw closer to Earth and take greater shape within human life, with their natural divine vibration confronting, within all beings, everything that does not belong to the new cycle.

Thus, in this period of cosmic and universal renewal, it is important to have the heart united with God, and not resist the transformations.

Allow yourselves to be renewed, so that you may be potential renewers of the Love of God.

You have My blessing for this.

Your Father and Friend,

The Most Chaste Saint Joseph
