DAILY MESSAGE OF SAINT JOSEPH, TRANSMITTED IN THE MARIAN CENTER OF AURORA, TO THE VISIONARY SISTER LUCÍA DE JESÚS??

Silence your heart and consciousness a little more so that you may become a self-observer and in this way you are able to deepen into your evolution.

Superficialities will have no place in this new cycle. You will no longer be able to give certain permissions to your inner world, sometimes being spiritual and sometimes earthly.

Become silent, not to observe and correct others; let each one respond for themselves. You will help your neighbor in a much more true way if you were an example for them, rather than a judge.

Be what you must be only to fulfill your part, and not to demonstrate anything to anyone, because intentions are imprinted on the works and dictate the degree of radiation that they will hold. You will not cause the world to evolve with works full of vanity. Be, because you have to be, and nothing else.

This planetary cycle will bring you clear, precise and orderly impulses, so that your response may be like this.

Be precise and objective in what you do. Be true and simple within yourself. Be meek, loving and peaceful, but also be righteous and dedicated in your actions.

Allow that which you hold within yourself emerge, because the time has come for the correlation between the inner and the outer world.

The codes received over the years have already inwardly made you a spiritual being. You have clear goals and true purposes; now, experience them as the most important thing to be done.

Outside of yourself, all around you, the new vibrations will build the path. Place both feet on this path and walk without looking back.

You have the blessing of the Heavens.

The Most Chaste Saint Joseph
