WEEKLY MESSAGE OF CHRIST JESUS, TRANSMITTED IN THE MARIAN CENTER OF FIGUEIRA, MG, BRAZIL TO THE VISIONARY FRIAR ELÍAS

Abandon the past, abandon the ground that your feet are stepping on and submerge now in the restorative ocean of My Divine Mercy.

Allow that in this very moment that I may resolve your life. Surrender to Me in trust all of that which you still have not reached by your own effort. I have the power and the truth that will permit you to know in which moment of life you find yourself. I only need that you remember My presence day and night, and that you may be attentive so as to listen to My silent Voice in the heart of your brothers and sisters.

The time has already come for Me to return to Earth to demonstrate to humanity how much it has been mistaken by not complying with the Project of My Father.

But sometimes the souls are seen trapped in themselves; for this, I say to all of you that I have the secure key that will open the door of liberation in the right moment and in the correct hour.

Construct through your prayer the inseparable unity with My Heart; I need soldiers willing to transmute the evil that the world lives today. I will not leave alone those who call Me; My Merciful Spirit will reveal to you the moment to act through the heart.

Today I bring to you the essence of silence, a silence that is lacking inside and outside the souls. Be representatives of the universal silence so that peace, which is absent from the life of many, may return and reconstruct the home of many families.

The merciful prayer will bring you to discover the silence which I tell you about. See the example of My Silence during the Passion, My Silence during the Last Supper and My Silence during the Resurrection.

The new apostles of Christ will awaken by the strength of silence and of inner prayer; these gifts will allow you to restore the Earth from its eternal suffering.

I contain you. I love you and I bless you.

Under the Love of God, be blessed.

Thank you for seeking the silence of My Heart!

Christ Jesus
