DAILY MESSAGE OF SAINT JOSEPH, TRANSMITTED IN THE MARIAN CENTER OF AURORA, ??????, PAYSANDU, URUGUAY, TO THE VISIONARY SISTER LUCÍA DE JESÚS

Awaken the faith in your potential and in the Love of God that is within you, not so that you may feel proud and unbeatable, but so that you lose the fear of being an instrument of God and of serving His Plan without conditions.

Discover the truth about yourself, so that you may cease to search for the paths that are not for your feet and that only confuse your soul in the sea of illusions of planetary life.

In humility, see that you are a child of God and that there is no other inheritance for you than His Kingdom and His Power; but for that, truly be a child of God, and empty of self, allow the Lord to manifest His Works and His Graces in the instrument of your being.

Child, you ignore your potential as a creature coming from the Divine Source because the pride that inhabits this world caused you to believe that the coarse material illusions are the glory for you, and that the true gifts of Heaven would be unreachable.

Child, humility is not to believe that the things of God are not for you because they are too great. What makes you think this way is the ancient pride imposed by the enemy, so that souls will perpetually seek the illusion of the world.

True humility recognizes that everything that is in Heaven is to be shared with all creatures, because God has no ambition, does not keep everything for Himself. He does not come from this Earth.

When humility is in the consciousness, causes it to recognize that God is within reach of the simple - and it is only necessary to be empty of self and of the wants of the world to find Him - and that He surpasses Himself every day in His Mercy, dwelling hidden within His creatures.

Open yourself, child, to true humility, which does not distance you from God, but rather, unites you with Him.

Humble is the heart that recognizes the greatness of God, and with the forehead on the ground, gives thanks every day for the gift of having Him within the self, and thus, seeks Him and contemplates Him, always aspiring to respond to His Mercy, always wanting to be worthy of such a majestic visitor.

Find the Father within your essence and ask Him every day: What do you want to live in me today?

Your father and companion,

The Most Chaste Saint Joseph
