DAILY MESSAGE OF SAINT JOSEPH, TRANSMITTED IN THE MARIAN CENTER OF AURORA, TO THE VISIONARY SISTER LUCÍA DE JESÚS??????

As misery and the abandonment of the indigenous consciousness are a result of a millennial mistake, other situations that take place on the surface of Earth and in the invisible worlds for the human eyes are also consequences of these and other mistakes.

Children,

The human being has not opened itself for its real potential, and it is blind and deaf due to the well-being in which a few live through material illusions.

Human life today is like an "industry of illusions" that will have, as a consequence of its products, the absolute degeneration of the planet.

To be conscious of the human situation, it is necessary to carry out service, to meet and see with one's own eyes the spiritual and moral misery with which our brothers and sisters have reached.

To awaken, it is necessary to leave oneself, many times, because the indifference of the hearts is so great that even seeing in the news a small percentage of the tragedies in which you live as humanity does not remove you from the point in which you are.

Children, I cannot place My eyes on yours for you to see the world as I do, but I can place your hearts in Mine, for you to feel as I feel, so that you may experience a little of reality.

The physical misery that you know in part is minimum before what happens spiritually. If aside from serving, you pray with your heart, you will find that there is an infinite field of service, hidden in the planetary ether.

Deepen into prayer, really, and you will understand by yourselves what I tell you.

Do not pray for wanting to know, for wanting to do or for wanting to be something; pray to speak to God; pray because this is the language of the heart and the spirit, and it is in this dialog with the Divine that the Creator will make you understand that which is of His will.

To balance the evil in the world pray, transform yourselves, serve and be true peacemakers and apostles of Christ.

Abandon your positions in the "industries of illusions" and do not make the same mistake of a past that generated the present. Live the transformation that prepares the future and that brings to the planetary life redemption and reconciliation with God.

Do not read these messages as pretty words nor take them as simple impulses. The human gaze is still cloudy in the face of higher things. If you want to find in what I say the absolute and reachable truth for yourselves, read, and reread what I have already said, pray, serve, and in doing so your eyes will be cleansed, to be able to see with the potential of a child of God.

I bring in My hands the water that washes you, and I place in these words the human language, for you to be able to serve yourself of it. Wash your faces and awaken. Experience this which I tell you.

I love you and I bless you, for you to go ahead without stopping.

The Most Chaste Saint Joseph
