DAILY MESSAGE OF SAINT JOSEPH, TRANSMITTED IN THE MARIAN CENTER OF AURORA, TO THE VISIONARY SISTER LUCÍA DE JESÚS????

I know that the Apparitions of the Divine Messengers are a mystery to many, a mystery that in some, causes growth in faith and in others, the torment of doubt.

This world, children, is full of mysteries. The human consciousness itself is a great mystery both for the cosmos and for you yourselves.

On this planet, you must learn to live through faith; faith in the invisible, in the intangible, in the divine, in wholeness. It is only through the grace of faith that a heart can be before the different situations of life with the necessary clarity and understanding.

I tell you this because, as a group and as humanity, you are before two challenges, which are the two missions you are experiencing. Both situations that need to be unveiled have very deep and unknown roots to everyone. And so that you are not before them in a superficial way, you must open your hearts to the living of faith, for it is in this way, trusting in the invisible and following your hearts in things that may be inexplicable or not very obvious to your minds, you will be whole before those two challenges.

The two situations that beings face today, both in the Middle East and in Chaco, Argentina, needed to become extreme for humanity to look at them, and even so, those brothers and sisters suffer a great deal through indifference, because the human heart still has not opened to defeat its own conveniences and look to the needs of its fellow beings.

Your brothers and sisters of the indigenous consciousness tried to lead a certain part of the planet, especially the Americas, into an evolutive life different from the life of the rest of humanity. They found the Sacred thanks to their reverence, and it was precisely the lack of contact with material creations and the inventions of the human mind that allowed them to find a different evolutive path, based on love and simplicity.

But on a planet where everyone came in order to learn to love, the very tendency of the spirits present on it suffocated the natural expression of the guardians of purity, the original peoples. With the help and the incentive of the enemy of God, you were not able to understand the differences, and over the course of many centuries, tried to impose a form of mental material life, based on competition and struggle for power. Because the natives were not like that and because they had remained in their purity, you made them suffer, and up until today, you influence the minds of the little ones as you can, trying to make them disappear from the Earth, without realizing that with them will disappear love, simplicity, purity and the humility of the heart.

It is the same struggle to impose personal customs and ideas that generates permanent wars and conflicts in the Middle East. And I tell you that the incentive for those wars does not only come from the Middle East, and it is not only with the help of great Western economic powers that they grow and develop. I want you to understand that those evils have deep spiritual roots and one purpose: destroy the Plans of God. It is for this reason that we count more on the spiritual fortitude

of a few than on the material resources of many.

One of the ways the enemy has of causing you to lose faith and hope is to place the craving for finding material results in the minds, but that search was what led Judas into suicide, because of not understanding that the victory of the Messiah was on the Cross.

You, who are more aware, must serve without seeking results, transform yourselves without receiving merits, strive without looking for returns or recognition. God has His Eyes on those who are true and faithful to His Plan. He will place His Cross on those, which for some may mean death and failure, but for those whose hearts are open and their consciousnesses awake, it will mean the triumph of God in the entire universe.

Serve every day with the certainty that the true battle is experienced in spirit and must be won there. That which takes place in the matter is a simple reflection of what is multiplied on the Higher Planes.

For this reason, I want to have you understand the events of the world from a broader point of view so that, in light of your service, you do not cling to that which you can do with your hands, but rather, to what is achieved with the heart.

For the discovery of service and the spiritual mission,

The Most Chaste Saint Joseph
