DAILY MESSAGE OF MARY, ROSE OF PEACE, TRANSMITTED IN THE MUNICIPALITY OF LOS COCOS, CORDOBA, ARGENTINA, TO THE VISIONARY FRIAR ELÍAS DEL SAGRADO CORAZÓN DE JESÚS

For those who persist, My smile is eternal.

For those who can do much more, but do not, My smile is serious and contained.

For those who do not give of themselves and waste time, My smile is sad.

For those who have potential and place it at the service of the Plan, My smile is one of joy.

Because all that you are able to offer, and a little more, will be well received by the Eternal Father, and the imperfections will no longer matter, but rather what you are to surrender at each new stage of the realization of the Plan on Earth.

For this reason, all that you may do will help a lot. But if all that you do is not from the heart, but rather forced, it will not hold the impulse that it should.

To live the Plan, you cannot be dragged nor helped to shift out of inertia; because you already have the tools, above all, the experience that the Plan of Love is built daily with determination, effort and attunement.

Convenience and stagnation do not exist within the servants of the Plan. The Plan is permanent dynamism; it is the flow of higher streams within universal life. The Plan is not static or fixed.

The Plan is movement in ascension and who is in the Plan cannot become stagnant, because the flow of the Plan itself, through its higher impulse, would shift them forward.

Inertia is one of the roots of convenience and pleasure. So that it may be defeated, you must always seek something to do because, if you do not, you will be contributing to the sleepiness and to the worldwide inertia.

I thank you for responding to My call!

Who blesses you,

Your Mother Mary, Rose of Peace
