DAILY MESSAGE OF SAINT JOSEPH, TRANSMITTED IN THE MARIAN CENTER OF AURORA, PAYSANDU, URUGUAY, TO THE VISIONARY SISTER LUCÍA DE JESÚS??????

As much as you can no longer stop the influences of the current world in the consciousness of the original peoples, focus your attention and the purpose of these last moments of the mission on the intention of spiritually re-igniting the original codes of these brothers and sisters, that first principle emanated by God on manifesting these peoples on Earth.

May the fact that you have gone to serve with the pure intention of fraternally sharing, helping, loving, without imposing a culture, a religion, or a line of thought, place in the consciousness of humanity an impulse of respect and peace for the different human expressions on Earth.

Much is yet to be done for your original brothers and sisters, always in the spirit of simple sharing, respecting their way of expression and living, and being aware of the need that planetary life has for these peoples to maintain their purity and their simplicity, so that therefore they may help in the elevation of the Earth.

May the example of this selfless service imprint in the consciousness of Argentina this way of serving and uniting with the indigenous consciousness.

I would like this impulse not to stop here and that other peoples may be helped by the groups of service and prayer, especially in Argentina, to remain faithful to what they represent as a part of the Creation of God.

May the Fraternity - International Humanitarian Federation expand its serving arms to the different cultures of the planet, and in this way, grow in the attribute that is part of its name.

Everyone must feel part of this humanitarian fraternity and thus, make every act in your lives an act of fraternity. May each day bring an opportunity for carrying out a humanitarian act of assistance to your fellow beings and also to the Kingdoms of Nature.

With the missionary spirit imprinted in your consciousnesses, be missionaries every second of your lives and recognize that you have come to the world to fulfill a higher mission: learn to love and to multiply love on the surface of the Earth and in all that exists.

I love you and I will accompany you in your next steps.

The Most Chaste Saint Joseph
