WEEKLY MESSAGE OF SAINT JOSEPH, TRANSMITTED IN THE Village of Dornes, Ferreira do Zêzere, Santarém, PORTUGAL, TO THE VISIONARY SISTER LUCÍA DE JESÚS

Contemplate today the Presence of God and receive His Holy Peace.

Children, today I am not alone, but with the whole Celestial Universe, that contemplates the magnitude with which the Kingdom of Lys is preparing to be expanded towards the hearts of the world.

Today the Universe detains, and the Sources of Grace open up in order to accompany the presence of the Mother of the World amidst humankind and to pour over it the last flows of forgiveness, redemption and mercy.

Today, even the Eyes and the Heart of God detain, in wait for one single heart to truly be opened in order to enter the Kingdom of Lys and come to know its mysteries, understanding that the Grace of God is on Earth as well as in Heaven and that the Kingdom of the Heavenly Mother coexists with humanity, in silence and reverence, waiting for your hearts to be open and willing to find It.

Today, Justice is once again placated by the hands of the Universal Mother, so that all Creation may contemplate the magnitude of Her Love for humankind and for the Plan of God.

Through the slightest compliance of humanity, the Creator will perform miracles; it is enough that you be correctly placed before His Grace.

May each instant of this sacred moment of the Kingdom of Lys be revered by the children of God, as it is in the entire cosmos. Pray and vigil so that the expansion of love that Lys-Fatima hopes to experience may reach beyond borders, beyond the personal needs of the hearts that clamor, beyond the nations that open up their hearts to it.

May the light of Lys permeate the abysses of the Earth, converting and repairing hearts, conducting the lost souls and healing a millennial past that still waits for the moment of being alleviated.

Accompany the next 13 May with your heart, which will lead the planetary consciousness into a new time, because the spirit of the planet will feel the weight it will be relieved of, and many souls will understand how truly simple it is to correspond to the Heart of God.

It will be up to each being to keep the impulses of Lys in their spirits and not to let them perish, so that its expansion may be perpetuated beyond all the 13th days that will come.

Wherever you are, feel the presence of the Kingdom of Lys, and let its purity cross the walls of your inner world and bring back the hope of returning to God.

May essences be ignited by the light of Lys, which will find in your prayers the vehicle in order to travel through the different dimensions of this world.

Pray and vigil along with the whole Universe. Unite as one army of the Universal Mother, the Mother of the World, and may Her Light and Her Purity be extended to the whole planet.

Vigil in prayer within the Kingdom of Lys, where purity is preparing to be expanded upon the Earth,

The Most Chaste Saint Joseph
