DAILY MESSAGE OF SAINT JOSEPH, TRANSMITTED IN THE MARIAN CENTER OF FIGUEIRA, TO THE VISIONARY SISTER LUCÍA DE JESÚS???

Pray for peace on the planet and contemplate, in this phase, the needs of the world.

The moments in which you gather to pray with your brothers and sisters should always be opportunities for each one to feel, in the heart, the pain of God and to relieve this pain through each bead and each song.

The pain of God is due to the suffering of the souls and, when you pray from the heart, prayer, which is a divine instrument, may take the Grace of forgiveness and of mercy to those who unfairly suffer or through the action of Justice. Therefore, enter the Heart of the Father while you pray and take with you all your brothers and sisters because the doors are opened to all who pray with sincerity.

Feel, then, in your chest the pain of God; contemplate and see with the eyes of the spirit why He who created you suffers so much. And pray, child, pray feeling the Father, who is pure Mercy.

There is nothing that makes you grow so much as knowing the truth about this world and to feel, even if it is a little, the pain of the Creator.

The one who prays with you and always follows you.

The Most Chaste Saint Joseph
