SPECIAL MESSAGE OF SAINT JOSEPH, TRANSMITTED IN THE MARIAN CENTER OF FIGUEIRA, MINAS GERAIS, BRAZIL, TO THE VISIONARY SISTER LUCÍA DE JESÚS

Seventh Day of the novena

When the Angel warned Me that I should leave with the Holy Virgin and the Boy to Egypt, because people would try to kill Him in Bethlehem, in My Chaste Heart I saw everything that would come to happen. I took the Boy in my arms and placed My Holy Spouse on the mule. There We understood that Our life would be an eternal battle until the Boy could fulfill His Mission.

The Most Holy Mary was also able to see what would happen with the children in Bethlehem, She could hear the screams and tears of their mothers and could feel the pain of God in Her Pure Heart. We had to leave without looking back, trusting in the fact that we were leaving so many children for the salvation of One Child who, someday, would return their lives to them. In Our Hearts, we strengthened the faith in God and during the whole journey, we prayed for His little children and We knew that He was listening to Us.

Sometimes, children, God asks you to walk without looking back, to apparently leave alone people whom you love, who need your care, but you should know that your spiritual steps provide greater support than your presence. Physically you can protect a body and, spiritually you can save a soul, an essence, the whole evolution of a being.

For this reason, if one day God calls you to walk without looking back, do not fear to take these steps, because they will, someday, be the motive for the salvation of those who stayed behind you. For you not to fear, and to strengthen your own faith, pray to God in My Name:

Lord,
just as You called Saint Joseph,
and He responded to Your Call,
call upon us and teach us not to look back;
lead us and strengthen our faith in You;
guide us so that we may know
that life in this world fades away,
but the merits of the spirit endure forever.
Amen..

Children, during this transition, trust in the fact that taking spiritual steps is what matters the most because even if the world trembles and life fades away, it will be the merits generated in the purity of your hearts that will allow life to be recovered and the Earth to be rebuilt with principles of Love and Unity.

I saw the world tremble, I saw war consume the hearts of humankind. I left Mine behind to support the Boy and, one day I also left the Boy, by the Will of God, and it was from Heaven, with My Invisible Eyes placed upon the Earth, that I saw souls recover life and Love be stronger than war.

Your Father and Companion,

The Most Chaste Saint Joseph
