DAILY MESSAGE OF SAINT JOSEPH, TRANSMITTED IN THE MARIAN CENTER OF FIGUEIRA, TO THE VISIONARY SISTER LUCÍA DE JESÚS??

To all My children who are willing to live in a missionary spirit

Children,

The missionary spirit is one that takes you to promptness, service, charitable and selfless action, and also to transformation, overcoming of self, and to absolute and true love.

To be missionaries, you must first want to transform yourselves and accept living the new patterns of life on Earth, which are based on the love of your neighbor and the Kingdoms of Nature, as well as of yourselves, and of God above all things.

When you decide to be missionaries all the days of your lives and put this into practice, you will find out how much you used to think about yourselves and how distracted you were from the needs of your neighbor.

A true missionary makes their own life their main mission and, they deepen into it, are formed, and mature, in order to fulfill other missions amid the neediest and forgotten.

If you do not make your life a mission to fulfill the Divine Purpose, your service will be very scarce and poor when you provide it for others, because the more you live the missionary spirit and the more impregnated you become with charity and love, the more possibilities you will have for being true instruments of God in these times and the times to come.

It is for this reason that, before summoning you for an official mission, I founded the Planetary Missionary Network, for in this way, you will be consolidating the bases of the missionary spirit in your own consciousness, and even in your homes and daily lives, you will allow the Creator to make you His instruments in the world.

If you are attentive to the needs of others all the time, you will develop your intuition and will be closer to Divine Thought.

When you experience the love that transcends the personality and when it comes from the soul and the spirit, you will be entering into the Love of God and will be able to experience how the Creator loves His creatures. In this way, children, you will be apt to represent Him when His Voice is no longer pronounced in the world as it is today, and when it is up to human beings to guide their destiny according to how they act in the tests they will experience.

Remember: the foundation of the Planetary Missionary Network is to be a missionary every day and thus prepare oneself to supply the needs of the planet wherever they are.

I bless you in this new cycle and I leave you My impulse of charity and love so that you may take fruitful steps in the mission of your own life.

Your friend and companion in the missions,

The Most Chaste Saint Joseph
