WEEKLY MESSAGE OF SAINT JOSEPH, TRANSMITTED IN THE MARIAN CENTER OF FIGUEIRA, BRAZIL, TO THE VISIONARY SISTER LUCÍA DE JESÚS

Children, there are situations, internal as well as planetary, that depend on the Law of Mercy, because they are out of human control and capacity to transform themselves and the planet, for they are so degenerated and distant from the Divine Purpose. In such situations, Mercy descends when the being surrenders and, having done everything that was within their reach, did not move from their place. Mercy is the Hand of God which elevates you, that lifts you up from the abysses and places you where you do not deserve to be.

However, there is part of the transformation, both of the planet as well as of the beings, that depends on the will and perseverance of each one, because in this case it will neither be justice nor mercy that will correct them.

When the consciousness is able to take the steps with its own legs and does not do so because it lacks will and bravery, Mercy has no permission to descend upon it.

I tell you this because this is a definitive time for many, and you are before the possibility of crossing the threshold between the old life and what you really should be, but you lack bravery and perseverance, constancy and will.

Know how to invoke the right principle at the right time and do not cry out for the Mercy of God when, in truth, what you need is within you. Invoke the Divine Will, which is in the interior of all beings, because it is only with this energy that you can bear living in this world with so much chaos and density. Invoke the Divine Will for it to emerge from your beings and be strengthened with spiritual bravery to take your steps.

Cry out for Mercy for those who truly need it, because if you hear these Words today it is because Mercy has already acted in your lives.

Your Father and Friend,

The most chaste Saint Joseph
