DAILY MESSAGE OF SAINT JOSEPH, TRANSMITTED IN THE MARIAN CENTER OF AURORA, ??????, PAYSANDU, URUGUAY, TO THE VISIONARY SISTER LUCÍA DE JESÚS

Children,

In the home stretch of the mission in the Middle-East, We ask that you multiply your prayers and do not tire of following this occult task of liberation that the Divine Hierarchy carries out through the simple acts of service and love of the missionaries in Turkey.

In light of this unique planetary opportunity generated through the prayerful merits of all, I ask you to continue to go deeper in your inner understanding of the meaning of a life of service, when it is based on Christic charity rather than just a social action.

May this door open to the liberation and the rescue of the souls of the East be able to continue expanding, and that the missions that will come later may bring new possibilities of redemption for that part of the planet that was once the cradle of the most sacred event of this universe.

Keep your hearts united to the missionaries and make this bridge to God through your prayers so that, from the Marian Centers and the homes of all those who pray, scattered throughout the world, this pure and true intercession can emerge from the human heart so that, in this way, the Creator may pour out His Mercy upon the Earth and grant the souls of the East a new hope, a new opportunity of redemption.

This is the time for being even more vigilant, in spite of the weariness and the sacrifice, for the more sincere the effort to overcome yourselves, in the name of humanity, the greater the balance generated for human salvation.

The One Who encourages you in the transcendence of self, for love of the Plan of God,

The Most Chaste Saint Joseph
