DAILY MESSAGE OF SAINT JOSEPH, TRANSMITTED IN THE MARIAN CENTER OF FIGUEIRA, MINAS GERAIS, BRAZIL, TO THE VISIONARY SISTER LUCÍA DE JESÚS?????????

Trust in the designs of God, because His Mercy is trying to reach consciousnesses at a maximum, but when beings decide to learn under the Law of Justice, the Creator has no other alternative than to be just.

The Justice of God is not a punishment, it is an opportunity to find His Will again, based on lessons that allow consciousnesses to face an immediate transformation. And in this way, beings find themselves facing everything that, by Law, they need to experience to learn and awaken.

Mercy appeases the Laws of Justice and tries to bring learning based on love to the planet, an awakening that comes from forgiveness, from a knowledge of God, and from adherence to His Will through the birth of faith.

But when Mercy does not find a place to act in hearts and when the purification blinds the eyes of many and does not allow them to see clearly, only Justice can make them find God again, as long as consciousnesses know how to correctly understand that which they are experiencing when they are before the consequences of the descent of Justice.

Trust in the Wisdom of God, for it does not work with the same logic of human thought.

I know that Justice makes hearts suffer, and I do not tell you to not suffer, because the heart that suffers must also experience its part in this lesson, which is for everyone. I only tell you, child, that beyond the suffering and the fear that this Justice causes in the hearts, have faith that it is safeguarded by Divine Wisdom and, in another round of the spiral of human evolution, that which today upsets you will be a reason for joy and growth for all.

Bring peace into your heart in face of the action of Justice, because in a near future, when it precipitates over all the planetary consciousness, many will not understand and will mistake it for punishment, thus losing their faith and trust in God.

Be an example of faith and of permanent trust in God, irrespective of His designs being in favor of or against that which your human heart feels.

Who always loves you and encourages you to continue forward,

The Most Chaste Saint Joseph
