PRIVATE APPARITION OF THE VIRGIN MARY IN THE MARIAN CENTER OF AURORA, PAYSANDU, URUGUAY, TO THE VISIONARY FRIAR, ELÍAS DEL SAGRADO CORAZÓN DE JESÚS

In the name of the Father, the Son and the Holy Spirit. Amen.

I come to a world in chaos and suffering, a world committed to the forces of evil, submerged in desperation, without finding the way out.

I come to a world in despair, with a lack of faith and fortitude.

I contemplate My children in suffering and in deep sorrow. I bring from Heaven all you need to be able to achieve redemption and live in Peace.

For this, you must surrender to the Plan of God, place yourselves at His feet to someday live in His promised Land, to live in the New World, the New Humanity.

I am in prayer for all the situations you face and experience, for the world disease you are going through, the effect of a great disharmony with the universe and the Law, generated by the life of illusion and indifference.

You must learn to leave suffering. You must learn to find the path towards the Light. You must return to the Heart of the Eternal Father, which is the Source of all life, regeneration and healing.

But you have to surrender and you also have to offer yourselves for what God wants to accomplish in each one of your lives, for what God wants to build in each of your hearts.

He patiently waits that one day you will say yes and that you will cross the portal into His Kingdom so that you will acknowledge and know about the reality that you have never seen and never known.

This is the most difficult time of all, of all the times that have already passed through this planet and this humanity. But this time is this way because humanity generates it.

Prophecies are fulfilled because humanity attracts them, concretizes them through its actions, through its thoughts and feelings.

The prophecies may not come true or be concretized, but they exist, not as a punishment, but as a warning, as an opportunity to be in time to correct the confusing paths of My children, of all beings on Earth.

The prophecy has no religion, it is part of the Sacred Word, of the Divine Word, of spiritual instruction, of the Message from the Heavens. Therefore, you should know that the prophecy might not be fulfilled if your behavior and actions become different.

If you were attuned and in union with the universe, you would transcend your material and human conditions, you would be led towards the truth and you could understand much more than what you know or think you understand at this time.

If each one of My children, on the surface of this planet, did the same, the prophecies would not be necessary.

But the prophecies are announcements that not only warn humanity but call it to be more attentive and vigilant so as not to lose the path and the universal opportunity that it is being given.

Humanity went through a year of great difficulties, uncertainties and problems, and is still experiencing it with full consciousness.

But your inner worlds can be in another attunement and at the same time in another dimension, they can be united to reality and to the Supreme Truth, and thus you will have inner tools to get through these difficult times.

Humanity has disconnected from the Source, this is why it lives suffering, this is why it lives adversity.

These are times when that divine and true connection, through prayer, is fundamental.

You cannot close the Source that gives you the Water of Life to quench your thirst in this great planetary desert. You must place yourselves, even more, you must be even more available so that this Source penetrates the depths of your consciousness and renews it.

But I know that even in what is spiritual, My children, in general, you are confused, you are disoriented, you are withdrawn from the Path that My Son, the Christ, offers for your redemption.

The signs that the Hierarchy gives are visible, unalterable and unmistakable.

What a human being can offer today on the surface of the Earth is their own condition, their own inner situation, their purification.

Therefore, you must bear in mind that not everything is from the Light. The Light is a direct source, it penetrates the depths of the being and leads it towards change, never towards convenience or towards that which is static, never towards that which is inert nor towards that which is indifferent.

The Divine Light that is unique can heal you in all senses and on all planes.

It is to that Divine Source that humanity must surrender at this time because, otherwise, healing will not come.

Humanity must make amends for its mistakes, it must rebuild what it has destroyed with its actions, not only in humanity itself, but also in the Kingdoms of Nature, in all of Creation.

I pray all the time that you can achieve this, My children, because I know that you can do it, and this is the strongest thing for the Hierarchy, because you can do so, and there are many of My children who do not do so, who do not determine it that way, who do not take the final and great step.

My Son expects that this inner construction be established in the majority of human beings, regardless of religion, but that it be a true inner construction that leads you to reflect the Supreme Source within your lives.

Thus, My Son will have His pillars upon the surface of the Earth in order to carry forward His great operation, in order to free the planet and humanity of their adverse and retrograde conditions, in order to establish the Kingdom of God in a very complex and sought after Universal Project.

But remember that you are part of a universe, of a universal life, which is not seen with physical eyes, but it is felt with the soul, with the heart, which can vibrate in the inner world of each being. From this universal life, help has always come for all races that have passed through this planet, as well as for other humanities throughout this universe.

These currents of the universe that can help humanity, and that always come to assist all life, are immutable currents. It is in them, My children, that you must place your aspiration so that your consciousnesses are more and more elevated, so that you learn not to be subjected by chaos and darkness, so that you make the Plan of Christ triumph through your lives, through your redemption.

Meanwhile, the spiritual universe mobilizes, collaborates and helps in situations unknown to humanity, with the purpose of alleviating the world and terrestrial consciousness, with the purpose of opening the doors to the cosmos so that many more may awaken and see reality, just as they knew it in other times; with the purpose that the veils of consciousness are removed so that you can remember and thus know that you are here for a Greater Will.

On this day, when the Birth of Christ is remembered and prepared for, may the families of the world be the center of prayer so that the cell of the Project of God, the most important cell, be cared for and protected from the chaos of the world.

Today the families of the world live their great banishments, exiles and crises in all forms. For if My adversary destroys them, the Project of God in the family will disappear.

But I am here, and I am your Mother, the Mother of families, the Mother of humanity, the Governess of the essences of the world.

Children, do your part, and help will come. It will not be necessary to go through suffering anymore, but necessary to find the calm of having entered into communion with Peace.

Let us pray that the angelic help rescues the world at this moment and leads humanity towards healing and peace; so that Christ, in this year, may be born in humble and simple hearts, in those who trust in His Return.

Divine Hierarchy, of Angels and Archangels,

we open the door to you, let the Light in.
In the name of humanity, we now invoke
Your cosmic intervention.

Amen.
(repeated three times)

May the knots of consciousness be untied. Let the ties be removed from the feet of those who walk. May the pilgrims be converted into doves of light to reach the Source and merge with it in order to carry out the Plan.

So be it.

In the name of the Father, the Son and the Holy Spirit. Amen.
