DAILY MESSAGE OF MARY, ROSE OF PEACE, TRANSMITTED IN in the District of Miraflores, LIMA, PERU, TO THE VISIONARY FRIAR ELÍAS DEL SAGRADO CORAZÓN

Dear children,

May the Solar Essence of the Love of God nurture you so that you may spiritually acquire inner fortitude in the face of all the battles of these times.

The Solar Essence of the Love of God is a most potent current that flows among the spaces of Creation and within the cosmic universe, which makes it possible to regenerate the spiritual and material life of everything that a molecule of light of the non-material Source holds within itself.

This Solar Essence of the Love of God is what allows our connection with the Heights to be awakened, but it is also the matrix essence that generates life and the different forms of expression in the material, mental and spiritual universe.

The Solar Essence of the Love of God is capable of repolarizing the spiritual being of a human being of the surface in the light since its electric and cosmic current comes from a spiritual Source that generates the expansion and illumination of the consciousness.

The Solar Essence of the Love of God is what brings us the principle of healing and reparation.

I thank you for responding to My call!

Who blesses you,

Your Mother Mary, Rose of Peace
