DAILY MESSAGE OF MARY, ROSE OF PEACE, TRANSMITTED IN THE CITY OF MANAUS, STATE OF AMAZONAS, BRAZIL, TO THE VISIONARY FRIAR ELÍAS DEL SAGRADO CORAZÓN??

Dear children,

Something exists between souls and God that the adversary will never manage to break: the love between God and His creatures, this divine essence that unites and concretizes the Works of the Father throughout this universe.

Dear children, do not allow this love entrusted in all that He carries out to be dissipated; open your hearts to be able to find this love and to bring to this planet all the peace and the love that is lacking within the planetary consciousness.

With My sword of Light in hand, your Heavenly and Warrior Mother battles so that love can triumph even more in humanity, in spite of its errors and all its sins.

Children, in times of alert, do not allow inertia or distraction to take away from you the possibility of perceiving the safest path through which you should be walking, because, through that ardent vigilance, you will know what path to travel.

We are fully engaged in a spiritual battle and few believe that all this can influence material life. See yourselves upon this board where the whole Hierarchy constantly coordinates strategies so that their soldiers are not knocked down.

Everything will be asked for, so that the Kingdom of God may triumph. Who is awakened, with their gaze focused upon the whole of the reality of these times, will be able to know that the time has now come for being very alert so as to not lose the battle.

In this way, day and night, I take care of My children, because a truce has not yet been called so that the plans can change. Prayer will be the impenetrable shield to all attempts at influence or disturbance.

Your union is in the Heavens and to the Heavens, you must respond, so that the world may someday learn to respond to Divine Will.

I thank you for responding to My call!

In vigilance and love,

Your Mother Mary, Rose of Peace
