Daily message of Mary, Rose of Peace, received in Brasília, Federal District, Brazil, to the visionary Friar Elías del Sagrado Corazón

Dear children,

May your hearts, in these difficult times, be sublime mirrors of My Peace so that, in this way, the Earth reaches redemption.

During the hours of purification, may your lives experience the time of liberation and constant search for the purity that God wants to deposit into your hearts.

At this time, the souls of the world enter into despair because without prayer they cannot live in peace.

Therefore, children, be this stream of peace that rises from My Heart and approach the lives of all who are spiritually blind.

Through the mirror of the peace of your hearts, your Heavenly Mother can take forward the rescue plan of all those who, for gravity and sin, would not deserve it.

Your prayerful and simple lives will be the true engine for My plans to be fulfilled.

Therefore, at this culminating hour, I receive the inner self-giving of all My children who will create the new bases of the New Humanity.

Opening My arms and extending My hands towards you, I will be able to reach you and lead you to liberate yourselves with peace from all that oppresses the hearts. Go towards the encounter of peace and believe that it is possible to experience it.

I thank you for responding to My call!

Who blesses you in the name of peace,

Your Mother Mary, Rose of Peace
