APPARITION OF THE GLORIFIED CHRIST JESUS, IN THE CITY OF LONDRINA, PARANA, BRAZIL, TO THE VISIONARY FRIAR ELÍAS DEL SAGRADO CORAZÓN, DURING THE 5th MARATHON OF DIVINE MERCY

As I did long ago, today I give you My Body to heal your wounds and consecrate your hearts to My blessed Most Sacred Heart.

As I did so very long ago, today I give you My Blood, the symbol of the covenant and of renewal, which will wash away your faults and free you from sin.

Let all those who avail themselves of My Body and of My Blood rejoice in honor and glory to God; in reparation to the Three Sacred Hearts, of Jesus, of Joseph, and of Mary; for the liberation of this world and eternal peace in each of the children of God.

Avail yourselves of My sacred elements with profound gratitude and joy.

Let the brave commune with Me every day, for in this way, you will give Me permission to transform you into new instruments of God.

Repeat:

Divine Mercy,
Source of cure and of healing,
restore our being,
in glory and honor to God.
Amen.

In the name of the Father, the Son, and the Holy Spirit. Amen.

Mother María Shimani:

At the request of Our Lord, we are going to sing "Apostles of Love."

Friar Elías del Sagrado Corazón:

Today, the work with our Master was a profound ceremony, because, for the first time, He appeared dressed as a prince, all in white, with His golden Hair, His light blue Eyes, smiling at us and offering us His Heart, opening His Arms to us, as our Mother always does.

When He appeared, in one of His Hands, I remember that it was His right Hand, He had a set of rings, which He was offering us. He was revealing to us a commitment, an offering which caused us to take another step with our consciousness, in our consecration, in our surrender to His Consciousness.

Afterwards, when He requested the bread and the wine, He made two different movements. When He consecrated the bread, He placed His Hands on it, and at that moment, we were able to totally and clearly see that all of us, inwardly, were at that Last Supper, which took place a long time ago.

At that moment, we perceived and He showed us that two events, two different times, the past that Jesus experienced, and the present that we experience, merged into one, like a single plane, a single dimension. And through that symbol of the bread, He consecrated it and blessed it, as He did with the apostles.

That is why the event we are telling you about occurred. When He requested the wine, His Heart shone with Light; it was a Heart that was beating rapidly and gradually was transfigured, into different colors and forms, at the center of His Chest.

Behind that Heart of Light, many rays shone of infinite colors and tones, colors that we had never seen and that were emanated from inside His Chest. All those energies, all those rays, not only went through that wine, but also all those who were attending this Marathon.

And at that moment, He also showed us how the power of His omnipresence was, in a very humble way, when we just called Him in a simple way.

At that moment, He showed us that all who were present here today, even the brothers and sisters that were watching us through the internet, merged into a single consciousness through the resplendent Heart of Christ.

Through an image that He was showing us of the planet and of humanity, there was no separation, there was no inner or outer suffering. Everything was healing, joy, much Grace that He emanated.

He was showing us how His Heart becomes merciful when we simply open the door to Him.

After this consecration, He remained for some time in silence and He told us to remember that His Presence would always be here when we are in silence.

Then He transmitted the daily Message to us.
