DAILY MESSAGE OF MARY, ROSE OF PEACE, TRANSMITTED IN THE CITY OF BAD VÖSLAU, VIENNA AUSTRIA, TO THE VISIONARY FRIAR ELÍAS CORAZÓN DEL SAGRADO CORAZÓN DE JESÚS

Dear children,

The Kingdoms of Nature offer themselves as a means for purification and the sublimation of your consciousnesses.

Through the younger Kingdoms, the human being finds the path to be free from themselves through the love they can express for the Kingdoms. For this reason, I encourage you to look and find the younger minor Kingdoms as a pathway for your conversion and inner redemption.

The Kingdoms of Nature and their great angels of the light await to be contemplated, loved and taken into consideration in the everyday life of human beings because, through the Kingdoms, souls can also express their devotion to God and to all of Creation.

Through the younger Kingdoms, human beings can detach from the past and from suffering.

Within the Kingdoms of Nature lies a moment of peace and communion with the Higher Universe.

Seek this path of union with the Divine through the Kingdoms. Foster their protection and care so that all of humanity may continue counting on the service of love from the Kingdoms, which is still unknown to humanity.

I thank you for responding to My call!

Who blesses you,

Your Mother Mary, Rose of Peace
