MESSAGE FOR THE MONTHLY APPARITION IN THE CITY OF MAR DEL PLATA, BUENOS AIRES, ARGENTINA, TRANSMITTED BY MARY, STAR OF THE SEA TO THE VISIONARY FRIAR ELÍAS

I Am the Sacred Star of the Sea, My Love is the bright star that lights the path of the seafarers. My Star of the Sea lights the devotion of the hearts that were wounded and lifts the lost wayfarers again to the Kingdom of Peace.

In My ocean of Graces exists a place for all the souls, to drink of the Source of Mercy and of Healing.

I Am the Star of the Sea and My paths are in your paths to help you find again the greater commitment that you had with God. The one who comes to Me will not be lost, will never feel alone and, even more so, will be able to unite their spirit to the Spirit of God.

The whole world has forgotten that the seas are part of the Creation of God and that in them He has deposited His Spirit of Peace and of Serenity. From the beginning the Lord has commanded to the seas that they be mirrors that reflect the Kingdom of Peace, but many of the oceans now are places of destruction and of contamination.

I want and desire to awaken in you a greater consciousness and love for the elements and for all the Kingdoms of nature, they too are part of the Spirit of My Maternity. And you, My dear children, through prayer will permit that your planet remain pure and alive for some more time, even though the damages caused to the Creation of God throughout the centuries are innumerable.

I ask you to place in your hearts the need to pray more and to help so that beloved blue planet, where I come from, may be a future dwelling for the children who will populate the New Earth.

My Divine Mercy and My Pity have always tried to change the course of the planetary events.

As Queen of Peace I give you not only the Peace your hearts need, but I also give you the reality that you are living in this world, a world that was donated out of love for you and about which you will have to testify before God the Most High.

For this, dear children, may your eyes be opened to be able to dispel the illusion that many live. I come to announce Peace, but I also come to announce the Truth, this is what My Son has asked Me, and together, Mother and children, we will be able to intercede for this beloved planet.

I thank all for awakening to the Supreme Consciousness, Your Eternal Father and Creator!

I bless you always,

Mary, Queen and Lady of the Star of the Sea
