Daily message of Mary, Rose of Peace, transmitted in the region of Valparaíso, Chile, to the visionary Friar Elías del Sagrado Corazón

Each time you open your heart to God, the universe of Superior Love can make of you prodigies, and any wound or scar that has been left in the consciousness of your being can be repaired.

Each time you open your heart to God, in spite of the circumstances or of the events, the universe of Superior Love can work in you and in all that surrounds you.

Opening to the heart to God is to surrender in trust to His Designs, it is to live His Divine and Powerful Will in humility.

Opening to the heart to God is to remain in meekness, to know how to maintain neutrality and calm, before any test.

Opening to the heart to God is to allow yourself to be permeated by Divine Life and become part of Him through prayer, service and permanent surrender to others.

Then, My child, let God remain always within your heart, and, thus you will experience the long-awaited freedom from this human captivity that created its own race of these times.

Continue opening to the heart to God at each new stage, at each new event, because, this way, you will help to fulfill the Plan, I assure you of it.

I thank you for responding to My call!

Who blesses you, in the name of the Grace of God.

Your Mother Mary, Rose of Peace
