Daily Message of Mary, Rose of Peace, transmitted in the city of Rome, Italy, to the visionary Friar Elías del Sagrado Corazón

My presence among you is a call for you to transform your lives into true instruments and models of sanctity for the end of times.

My presence among you aspires to redeem the deep aspects of the old humanity and that it be changed for the common good.

My presence among you wishes to leave the Love of God recorded, the infinite and immeasurable Love that the Celestial Father has for all His little creatures.

My presence among you expects to make of every human heart a peacemaking heart full of God in order to carry forward the conversion of humanity.

My presence among you yearns to be able to find many more souls that are able to experience their paths of rehabilitation, just as your souls are experiencing this in these very hard times.

My presence among you only seeks that you live in peace, in brotherhood and in communion with life so that the human decay may be purified and hearts may finally be healed of all of their errors.

My presence among you is to aid the current humanity.

I thank you for responding to My Call!

Who blesses you,

Your Mother Mary, Rose of Peace
