Daily Message of Mary, Rose of Peace, transmitted in the Marian Center of Aurora, Paysandu, Uruguay, to the visionary Friar Elías del Sagrado Corazón

Dear children,

I am that Rose of Light that emanates the subtle aromas of love for hearts.

I am that Rose of Light that turns pain into joy and suffering into healing.

I am that Rose of Light that shines during the night to guide My children.

I am that Rose of Light that blossoms again and again when My children are making an offering and are in prayer.

I am that Rose of Light that inspires souls to live the path of peace and of love.

I am that Rose of Light created in the universe to be the Mother of humanity, in service and love for all.

I am that Rose of Light that was once a humble human heart that was in service to the Lord, in praise and in joy.

I am that Rose of Light that brought to the world the most important thing it had lost, its original purity.

I am that Rose of Light that opens so that all may come to know the love of My Original Purity.

I hope that after this journey on the planet, your hearts will change as Mine did, into roses of light that are in offering and redemption at the Feet of the Creator.

I hope that one day you may be roses of light that reflect the inner purity of the soul that was worked on and purified through service and love for God.

I hope that you may be roses of light that wake up other roses, so they may blossom and manifest a true 'yes' to the Creator.

I hope, children, that you may be roses of light so that you may confirm that life can be divinized through union with the Celestial Father.

When your hearts change into roses of light, you will no longer be the same as always, for in you will awaken the unique talent that My Son left in the essence of each human

heart.

Be roses of light to glorify the Father and praise Him forever in gratitude.

I thank you for responding to My call!

Who prepares you for your change,

Your Mother Mary, Rose of Peace
