**Daily Message of Mary, Rose of Peace, transmitted in the city of Fatima, Santarém, Portugal, to the visionary Friar Elías del Sagrado Corazón**

Let the bridges of union and love between Heaven and Earth be built so that souls may enter the Kingdom of God.

Upon entering the Sublime Kingdom, may hearts commune with the Presence of God and of His Divine Fount.

Having been sanctified, may souls perceive the need to love more in these times and of drawing to the planet the spiritual and inner restoration it needs.

Having been filled by the Creative Source, let hearts respond to the great convocation and may all participate, in this time, in the Great Celestial Brotherhood.

Let none miss the opportunity of reaching new universes, so that the inner consciousness can expand and thus a new world and a new humanity may be built, consistent with their purpose and far from the constant indifference.

In this way, when all become aware of the true need of these times, souls will place themselves in service to their fellow beings, and the Plan of God will finally be able to continue to be fulfilled, just as it was written.

I thank you for responding to My call!

Who blesses you,

Your Mother Mary, Rose of Peace
