Daily Message of Mary, Rose of Peace, transmitted in the district of Los Cocos, Cordoba, Argentina to the visionary Friar Elías del Sagrado Corazón

Dear children,

Today I take you with Me to Mount Tabor so that on this day we may remember the sublime Transfiguration of Jesus, a divine and at the same time cosmic revelation that the Sacred Son brought to the Apostles.

The Transfiguration of Jesus was the perfect and cosmic symbol that, on experiencing changes in consciousness, it is possible to reach very high states of illumination.

Through the Transfiguration of His Divine Person, Jesus not only showed the spiritual reality that the human beings of this surface have in them, but He also brought continuity to the previous illumination of the Master Siddhartha.

It is thus that Siddhartha, in the past and by means of His illumination, demonstrated to the world the first step for transcending suffering. Jesus, the Christ, by means of the Transfiguration, brought to the world the divine knowledge that it is possible to transcend the state of suffering and reach a sublime elevation of the consciousness through a perfect communion and integration with the Divine Source.

On Mount Tabor, My Beloved Son revealed the knowledge of the non-material Laws that vibrate and are active in this Material Universe.

It was in this way that Jesus taught His Apostles about the true spiritual consciousness that we acquire at the moment of our conception in the sacred Reservoirs of the Source, and how from there the first steps of the experiences of love and of redemption, which this Material Universe offers us, begin to be cultivated in our essences.

But on Mount Tabor, Jesus also taught how to place oneself above all suffering or experience, focusing the consciousness within an objective state and with the gaze constantly on the Divine Purpose.

Through the Transfiguration of Jesus, My Son gave the human race the possibility of walking above suffering without entering into it, through the awareness of the love that opens the door to the healing of consciousnesses.

I thank you for responding to My call!

Who blesses you,

Your Mother Mary, Rose of Peace
