Daily Message of Mary, Rose of Peace, transmitted in the city of Oporto, Portugal to the visionary Friar Elías del Sagrado Corazón

Dear children,

This time, with My arrival in Fatima, I will bring the Humility of God to the world, an essence that could prevent many things within and outside of beings.

The Humility of God is that which the Celestial Mother will try to sow within the hearts that will open to experience this mystery, which makes all things simpler and truer.

I wish, dear children, that your hearts, in this time and inside the Sanctuary of Fatima, could perceive the Humility of God; so that many, many souls may be touched by this Gift that will change each being into that which it really came to express.

Without humility in daily life, it is not possible to build the bridges to God; humility is what grants the soul the possibility of resignation, which helps to bring more awareness and care when it comes to making decisions in life.

Humility allows us to cultivate a fraternal spirit, capable of understanding and accepting peers just as their consciousness is, regardless of their conditions or miseries.

The Humility of God will help you to know your inner world in a conscious and true way.

Think about humility and live it before it is too late.

I thank you for responding to My call.

Who blesses you,

Your Mother Mary, Rose of Peace
