Daily Message of Mary, Rose of Peace, transmitted in the Marian Center of Figueira, Minas Gerais, Brazil to the visionary Friar Elías del Sagrado Corazón

Most Holy Mary, precious Crystal of the world

Dear children,

I am the precious and humble Crystal of the world that radiates the codes of love and inner liberation.

I am the precious Crystal of the world that reflects the sublime energies of the Celestial Kingdom.

I am the precious Crystal of the world that holds within itself the essence of Christic Love.

I am the precious Crystal of the world that emits the celestial vibration to all essences.

I am the precious Crystal of the world that radiates the new vibrations to the planet that will allow the New Humanity to emerge.

I am also the precious Crystal of the mineral Kingdom that is wounded and removed from its place of origin within the earth element.

Precious are the crystals that the world has, and which are used to adorn and clothe the human race.

O how much the sacred crystals of the world suffer in this time, for they are exploited, broken and polished for something that, in truth, they were not created for!

O poor precious crystals of the world, that are sold and exported to places where they should never be!

O what a blind humanity, which cannot perceive the great task and purpose of the Kingdom of the crystals and of all the minerals!

Sacred are the precious crystals of the world! In their apparent stillness and silence, the stones do not speak and are considered inanimate.

Holy are the angels and the elementals that take care of the precious crystals of the world and which, in this time, just as with gold, are exploited for the personal benefit of a civilization backward in consciousness.

Sacred are the precious crystals of the world that, being removed from the earth and their habitat, cannot balance nor draw harmony to the Human Kingdom nor to the planet.

O sacred crystals of light, which are conquered by the hands of those who, in truth, do not know of the life nor the origin of this Creation.

Poor precious crystals, which cannot, in this time, regenerate the energies of the planet.

In truth, blessed are the crystals of this world, for within them, they hold the principles that will make of the New Humanity a more reverent, aware and mature race.

Woe betide the crystals of this world, for they are not aware of the cosmic imbalance that is being generated with them!

Let us look after the crystals, for in essence they hold all that surface humankind has lost due to its debts and its actions.

Sacred are the precious crystals of the world, for they renew life and all energy. Each crystal shares a group soul, capable of drawing to this planet what until now it has not been able to achieve.

Sacred are the crystals of the world, for they pick up the Laws of the cosmos, they pick up the powerful currents of the universe and radiate new patterns to the eroded human consciousness.

Sacred are the crystals of the world, for they belong to this planet and to this Creation, because they represent the new human consciousness, and for this reason, they hold the most precious codes of healing and of regeneration.

Let us help the Mineral Kingdom, the Kingdom of the precious crystals, so the debt of humanity may not keep growing in a disproportionate manner.

Let us unite with this purpose and more souls become caretakers of the Kingdoms of Nature.

Let us alleviate the suffering and not punish the innocent Kingdoms.

I thank you for responding to My call!

Who makes you aware,

Your Mother Mary, Rose of Peace
