Special Message of the Virgin Mary, transmitted in the Marian Center of Aurora, Paysandu, Uruguay, to the visionary Sister Lucía

I want to make known to the world know the Mysteries of the Holy Spirit, because the time is approaching when this Holy Spirit will fulfill Its primary mission of living in matter, and thus, divinize it.

From the Consciousness of God is born His Spirit, a Sanctified Spirit that will dwell in His Creation and bring divine life to that which is physical and non-physical matter.

The Holy Spirit lives in God not only because it comes from Him, but also He is It. The Holy Spirit lives as a part of God Himself, His Consciousness, separate from His Great Consciousness, but which acts as God, as His Will and Principle, because It is.

Being God, the Holy Spirit is like His active and quickening arm, which animates everything It touches, filling it with Divinity, with Divine Soul. It is like a Fire, because the Fire in It represents the active life in God, the Light that lives and ignites matter and spaces.

The Holy Spirit is like the living Heart of God, which travels through the Celestial Universe to touch the Creation of God and give life, divine life, to it all.

In this way, the Reign of God gradually expanded in the Heavens. The Holy Spirit lived in what God created, and It became as God, Father-Mother of all the Celestial Creation.

The Holy Spirit does not have a name, because it is in everything; It Is for living in everything, to be God in all things.

The Holy Spirit is born when in the universe is born the need for Love to exist, a Love different from what already existed in Heaven, a Love that is the very Love of God Itself in His creatures. And for this to be possible, it was necessary that the Love of God incarnate in matter, which was the densest and most distant from the Kingdom of Heaven, because this Love was so infinite that, in order to live its full extent, it would be born in the lowest and would reach the most High, the Kingdom of all Realms, the House of the Father of all the Fathers of the Universe.

So this is how God returned to matter again.

Many ask: "Why did the Lord, which was all Divine, manifest His Love in matter?" Because from there, when He reached Heaven, the extent of that Love would be unique.

And so that's how it was that God sent His Son to Earth, a Spirit that came from His Holy Spirit, a Verb that would incarnate and bring to Earth His Divine Verb. From here was born the Christ, Jesus, child of Mary and Joseph, of the lineage of David.

His Mother on Earth was like His Mother in Heaven. In the same way that His Christic Spirit was born of the Holy Spirit, so that this Love could live in flesh and soul upon Earth, it was necessary that it be done on Earth as it had been done in Heaven, and the Spirit of God took from Creation a

holy body, a pure and immaculate soul, clean of any stain, eternally holy like His Spirit. In this way, the Virgin Mary was born, an incarnated part of the Spirit of God, an archetype of His most pure creation.

I leave you with these words, so that you may open your heart to this new impulse of God and not fear to know the great mysteries of the Divinity and all the Aspects of the Holy Spirit.
