**Daily Message of Mary, Rose of Peace, transmitted in the city of Lisbon, Portugal to the visionary Friar Elías del Sagrado Corazón**

**With the Light of My Mirrors**

With the Light of My oceanic Mirrors, I come to radiate the wondrous Universe of God to the world.

With the Light of My oceanic Mirrors, I balance the consciousness of the planet and generate, in humanity, a greater time of peace where none exists.

The Light of My Mirrors generates the approach of higher Laws to humanity, Laws that allow the descent of the Grace and Mercy of God.

The Light of the Mirrors dissolves ideas of conflict and wars, and they become more powerful and luminous when souls pray to the Mother of God.

The Light of the Mirrors averts and appeases human anger, and expands the essence of Love in all spaces where unity and love do not exist.

The Light of the Mirrors can penetrate the human consciousness that opens its heart and its soul to recognize them. In this way, when the Light of the Mirrors is contacted with simplicity and humility, other Laws act upon the planetary consciousness.

I want the world to know the Light of the oceanic Mirrors, lovingly directed by My Immaculate Heart through the life that divine science has.

The Mirrors are part of that spiritual and divine science that is capable of lifting up each space and each soul to greater universes of consciousness.

With the Light of the Mirrors, I come to avoid the worldwide catastrophe that could be easily generated by the wars and the bombs created by the ignorance of some nations.

The Light of My oceanic Mirrors acts upon the unconscious of the planet, bringing codes for a new cellular atomic programming for humanity, in order that its consciousness wake up in the morning with a different feeling and seeming.

The Light of the oceanic Mirrors draws streams of healing from the universe, since they acquire all that is positive and evolutionary which surface humanity needs.

When the oceanic Mirrors are active, they generate the conditions for the elevation of the terrestrial consciousness and of the Kingdoms in all their diversity.

The oceanic Mirrors can instruct humanity on states of prayer and attunement. They can also inspire the building of a more fraternal and peaceful consciousness.

The oceanic Mirrors are part of the Kingdom of Lys, a Kingdom of prayer and of healing; they are present in the Atlantic Ocean and help to achieve a greater state of peace. It is enough to be in inner attunement with them for them to begin to be spiritually active.

I thank you for responding to My call!

Who blesses you,

Your Mother Mary, Rose of Peace
