DAILY MESSAGE OF MARY, ROSE OF PEACE, TRANSMITTED IN THE CITY OF AVILA, CASTILLA Y LEÓN, SPAIN, TO THE VISIONARY FRIAR ELÍAS DEL SAGRADO CORAZÓN

With the Eucharistic Body of My Son, exposed upon My Immaculate Heart, today your Heavenly Mother celebrates the Feast of the Sacred Body of Christ with you and with all those who pray throughout the world, in which Heaven offers an indulgence to all those who commune of this most precious Body of the Lord.

It is in this way that the Communion with Christ must be considered special and renowned since My beloved Son, from the Heavens, will be granting those who commune with devotion, the Grace of dissolving any fault, debt or action committed against His Sacred and unfathomable Heart.

That Grace will gain greater strength and amplify within if souls adore this Sacred Eucharistic Body for a few minutes. Just by simply looking upon the value of the Sacred Body of Christ, souls will balance their errors and become free of them all, which had led them into being separate from the path of love.

This act, which can be offered by each soul, will attract an inexhaustible flow of Grace to humanity and for all causes that generate war, death and the persecution of Christians and non-Christians.

The Grace will be for all if the majority contemplates the Sacred Body of Christ, present in the Eucharist.

I thank you for adoring My Son with your heart, for this allows His Mercy to expand throughout the world.

Who blesses you,

Your Mother Mary, Rose of Peace
