**MESSAGE FOR THE APPARITION OF MARY, ROSE OF PEACE, TRANSMITTED IN THE MARIAN CENTER OF AURORA, PAYSANDU, URUGUAY, TO THE VISIONARY SISTER LUCÍA DE JESÚS**

It is time to recognize the Truth of God, My children, to remove from your consciousness the ignorance about itself and to experience divine filiation as an everyday principle.

It is time to recognize your own essence and in humility turn to the Creator of all things, He who dwells within yourselves, and let Him expand and definitely establish His Reign.

I have come to the Kingdom of Lys, beloved children, for a Universal Purpose rather than a human purpose. I have come because this is My spiritual and divine Kingdom, where that which is most pure in each consciousness is held. It is from the Kingdom of Lys that I safeguard the essences and protect all My children from themselves and from My adversary.

The keys that open the doors of this Kingdom are faith and ardent devotion, and it is this faith and this devotion which I came to renew within My children so that, through their awakening, the doors of the Kingdom of Lys may be open for all of humanity and for all the Kingdoms of Nature, which also have their purity safeguarded in Lys.

While the critical times begin and many of My children are lost in the darkness, especially in the north of the planet, it is necessary that the doors of Lys be open so that, in recognizing their own essence, discovering and experiencing their filiation with God, souls are not extinguished and discouraged in the face of challenges and the abysses into which My adversary propels them.

Children, we are in a great battle for the triumph of Peace and you must be aware of this. The Kingdom of Lys must count on awake soldiers on the surface of the Earth so that, aware of the spiritual and physical situation of the planet, they may be guardians of the spring that flows from Lys to sustain souls in truth and in love, and that they not allow themselves to be lost nor deceived by the confusion of these times.

My children, the Purity radiated by the Mirrors of Lys is indispensable in these times of obscurity and darkness for a large part of humanity. And when I speak to you of darkness, I am not only referring to wars, hunger, to violence, but I am also speaking about ignorance, the indifference to God and the growth of capital powers, which blind the eyes of those who committed themselves to My Son and to the Creator, to experience Christic principles and awaken a love that opens the doors to infinity for a union with God.

The Mirrors of Lys, with their divine potential, must dissolve the darkness that does not allow My children to find the truth about themselves and about life on Earth. And for those Mirrors to be active, children, there must be pillars of prayer and of faith that support them and that, with purity of intention and humility, offer the Father their awakening and their surrender to be His instruments in the world.

It is for a universal and divine reason, My children, that I awaken the Kingdom of Lys and I establish a new Home on the surface of the Earth, not because that which I have already achieved as

Divinity in Europe through Fatima, Lourdes or Medjugorje was not enough, but each of My Homes has a unique function: to awaken certain souls and to manifest a divine principle.

Now is the time for a more profound awakening for Europe, like in America. It is time for My children to be more aware of the battle of these times and to unite through universal ecumenism to spiritually sustain the planet and prepare to fertilize the ground of the Earth for a new life.

Children, it is for the simple reason of elevating you and awakening you that I am here. As a Celestial and Universal Mother, I seek to lead you to the Truth of the Creator.

This evening, may the Mirrors of Lys be ignited within you and reflect Their Purity and Their Peace in your essences so that you feel and live an awakening to higher life, and may your souls, which are thirsty to serve the Father, finally find their path.

I love you and bless you, placing the Flower de Lys in your essences, a flower that awakens purity and truth within you.

The One who always guides you,

Your Mother Mary, Rose of Peace
