Message for the Apparition of Mary, Rose of Peace, transmitted in the Marian Center of Aurora to the visionary Sister Lucía de Jesús

In the beginning of everything, there was only Love and Unity as a Unique Consciousness. It was natural that this Consciousness expressed Its Love creating and, mysteriously expressing Its Unity by multiplying itself.

This great Consciousness was like a Sun, it was life itself. There were no forms in it, colors were not distinguished, sounds were not distinguished and, at the same time, it contained in Its creativity all the forms, all the colors and all the sounds.

In the expression of the Love of God, He divided Himself into three, three aspects of His Unique Face, three forms of manifesting His Divine Love: God the Father, who unites; God the Son, who creates; God the Holy Spirit, who gestates and supports Creation, who manifests and divinizes all forms.

It was in the manifestation of His infinite Love that God created the different races and civilizations of the universe and their diversity did not prevent them from feeling one with God. The Father gave His creatures the Grace of returning to Him, and not only in spirit; for He also granted that, by transcending forms and densities, in the sublimation of matter, in the ascension of evolution, those who experienced love so profoundly would become Love itself and would gradually return to be one with God, completely.

One experience of love leads to another, still more profound and this is how creatures ascend in the levels of the divine evolution.

To show to the Cosmos the perfection of His Thought, God created the human beings and created Earth. In a parallel time to the time of the universe, creatures who knew nothing about the universal life began to develop from the beginning of the material evolutionary scale; they did not have access to the knowledge of the Cosmos and did not even recognize the existence of other lives apart from their own planet.

To this small project, before His vast Universes, God sent His Son from the beginning. He was part of His part, essence and spirit divinized by His Origin, but without knowing it.

To discover the existence of God, it was necessary to experience love. And so it was that the human consciousness received the impulse to evolve, not by its skills or by its technologies, but rather by the love experienced by a few and that led them to transcend the barriers of the mind and reach the wisdom of the spirit, to discover and experience new laws.

The great discoveries of humanity were offered by consciousnesses that, at some level, experienced love, the love for the unknown, for the superior, for something they often ignored, because they hardly knew what the object of their love was, they just loved. But also those who did not know how to love had access to these discoveries and used them to make great harm to matter and to spirit out of them.

This is how, throughout the human development, the permanent contrast between love and evil always existed because in part, this is the human school: the transcendence of evil and of all its influences to reach love.

Children, why do I tell you this story and take you to Universes so distant from the reality you experience? Because the Lord allowed evil to be expressed on Earth with all its potential so that, at the limit of its consciousness, humanity could also express love.

You are in a time in which the manifestation and expression of chaos and evil are abominable and never seen before, and this means that the time has come to experience a degree of love also never seen before.

The time has come to surrender life for love again, so did My Son. The time has come to renew the sacrifice of Christ and, as He told you, to do greater things than He did when He was on Earth.

Do not let the expression of evil cause terror in your hearts, but rather, given the present planetary situation, allow your souls to feel the imperious need to balance what the world experiences, to serve and love as you can, to overcome the limits of your own surrender, to abandon yourselves in order to let yourselves be filled with the Love of God.

The collapse of the Earth, caused by the actions of chaos, dictates the urgent time of experiencing love and no more of learning how to love. It is no longer time to contemplate the Cross, but to embrace it.

It is time to pray and serve; it is time to know and be; it is time to understand and experience the laws of God.

May the learning of your brothers and sisters in mission in Turkey reveal to you the great need to experience love in the four corners of the world.

I love you and bless you,

Your Mother, Mary, Rose of Peace
