**MESSAGE FOR THE MONTHLY APPARITION IN THE CITY OF CUIABA, MATO GROSSO, BRAZIL,
TRANSMITTED BY THE MOST HOLY QUEEN OF PEACE, THE VIRGIN MARY TO THE VISIONARY
SISTER LUCÍA DE JESÚS**

Dear children,

For the world to take a step towards the Kingdom of God and get out of the situation which it experiences, the hearts that dwell in it must decide to surrender definitively to the Creator.

For the victory of the Divine Light to be a reality in this world, the human hearts must raise to Heaven a plea for Mercy and be consistent with their aspirations.

My dear ones, there is already enough lamentation in this world. Many are already resigned to the suffering which they experience, and many others surrender to the darkness without realizing it and do not find the strength to open their eyes.

I come to the world in search of souls who accept to experience the awakening, souls who no longer want to live sustained by darkness but who ardently wish to open the doors and windows of their lives for the Divine Light to enter.

Today I come to ask you to no longer live the comforts that this world offers you, but to embrace sacrifice, the permanent effort to enter as humanity into the Kingdom of God.

My beloveds, if you could see the world as I see it, you would definitely understand that these are times of emergency and you would be eager to get out of where you are and become sacred instruments of God, faithful soldiers of His army of Peace.

Dear children, do not lament over the events of the world, do not cry for your own pains or the pains of others, but rise from where you are, transformed by the Grace of My Presence, and act! Live to transform these evil events because, just as everything that happens in the world is a consequence of human actions, the reversal of these facts is also the responsibility of humanity.

I have often pronounced secrets to the hearts of My children that may one day come true, prophecies that speak of the Justice of God approaching the world, and I do not say this to cause fear in your hearts; I do not want to threaten you, I want to awaken you and make you aware of what is happening in this world that your eyes cannot see or that your hearts do not allow you to feel the seriousness of these times.

I speak to all who listen to Me because each one, to a different degree, must awaken to the reality of this life. I need soldiers more and more aware of the purpose to be manifested. Awaken! Awaken every day a little more!

My dear ones, if every day you offered a small sacrifice to the Creator, a small effort on behalf of the awakening of humanity, you would collaborate so that the suffering of this world could be alleviated.

Meditate on My Words, they never reach the world in vain. Each phrase that I pronounce holds in itself a greater purpose. He who knows how to listen will be able to receive everything that God delivers to the world, through His Messengers.

Be strong and determined, humble and servant. Be tireless, just as those who descend from the Heavens to rescue humanity.

These are times of urgency, these are times of definitive awakening.

I love you and thank you for responding to My call today, even if you do not know it.

Mary, Mother and Queen of Peace, the bearer of the awakening of this humanity
