Special daily Message of Mary, Rose of Peace, transmitted at the Sacred House of Mary, Mother Paulista, São Paulo, Brazil to the visionary Friar Elías del Sagrado Corazón

Dear children,

My eyes light up when they see the radiance of a life redeemed and changed by the power of the prayer of the heart.

My children, today I descend from Heaven to ask you for prayer for the children of Syria and the Middle East, for the smallest ones suffer the main punishment and injustice.

It is for this sacred cause, My children, that I come to implore that through the thirty-three days of prayer, you hold the intention of interceding for the children of Syria. They experience the consequences of exile, hunger, rejection and failure.

As your Lady of Graces, I come to rebuild this humanity, which has lost the values of reverence and sacredness, of fraternity and peace.

My eyes also cry for the smallest and most innocent ones, because the simplest families are the focus of the destruction of unity and love among beings.

The family is a Project of God; it is through family that the values of fraternity, cooperation and peace must be generated. The family can be the main group of prayer; like a mirror, it can reflect the essence of change and redemption to the Universe of God.

Dear children, that is why the Most Chaste Saint Joseph also descends from Heaven every day to help humanity, so that through His Chaste Heart, the values of the Sacred Family may be sown again.

I descend every day to teach you to truly love, to motivate you to change the habits of a material life that deteriorates the families of each one of you.

That is why, My children, I come to beg you to pray; prayer must be the epicenter of the family. The Project of God in the families of the world must be realized. If the union in families should disappear, the inner and spiritual values that allow all creatures to evolve would disappear.

That is why Abraham, Moses and the Sacred Family of Nazareth worked for the sacred values of the Project of God, which was to have the whole of humanity become a true spiritual family. But the influences of these times, the modernities and the personal projects have distanced families from the Love of God.

That is why Saint Joseph will try to impart His holy spiritual help for all of the Middle East, with the aim that these important values be reintegrated into the heart of all beings.

My children, think of and feel what I am saying to you; each one of you is called in this time to protect and take care of the spirit of the family through good customs, fraternal acts and expressions

of universal love.

Let us pray for the consciousness of the universal family that is this humanity. Let us pray for this project to be accomplished.

I thank you for responding to My call!

Who is united with the praying families of the world,

Your Mother Mary, Rose of Peace
