**APPARITION OF THE VIRGIN MARY DURING THE VIGIL OF PRAYER FOR PEACE IN THE NATIONS,
AT THE MARIAN CENTER OF THE HOLY SPIRIT, IN CORDOBA, ARGENTINA, TO THE VISIONARY
FRIAR ELÍAS DEL SAGRADO CORAZÓN**

In the same way as on a cold afternoon, on February 11, 1858, in the Massabielle Grotto, in Lourdes, today I come to meet with you, dear children, to plead, together with you, to the Celestial Father for all that I still must do here, in Argentina, together with My Son and Saint Joseph.

I hope hearts feel that a Divine Purpose is being gestated through this pilgrimage, during which all the hearts of this Earth again receive a new opportunity, which comes directly from My Immaculate Heart.

I want you, dear children, to feel the importance of continuing to accompany your Heavenly Mother on this path of redemption, which, together with My beloved Son and His Divine Presences, We have been building on the surface of this humanity.

Thus, today I come as the Lady of Lourdes, and at the foot of this small fount of Christ, I baptize you again by the strength of the Holy Spirit, for all that water, as a chaste element, can provide for humanity.

May this water, which is today at My feet, be the symbol for the immediate healing of spiritual life that many souls need for these times.

Just as I told Bernadette to dig and find the Fount of Life, today, through this water, dear children, I ask you to participate in your purification, your healing and redemption, through this element, which, from the origins of the Earth, has given itself to humanity to be a part of its evolution, and mainly, of its healing: of its spiritual healing, its mental healing, and its bodily healing.

See then, My beloved children, how important the symbol of water is in these times. How much it suffers in the world, the great waste of humanity and the permanent contamination, which even spiritually compromises it, so that it may continue to carry out its task with humanity.

God first created water. Have you ever asked yourselves why the Holy Lord, the Almighty, created water before humankind?

I come to show you, through this example, the spirit of self-giving, of humility, chastity and surrender, by means of the Kingdoms and the elements of this Nature, which God expressed for all His children.

Today, on this day of vigil of prayer, let your spirits be spiritually washed by the gifting of this water, so that your spirits are able to merge with Christ and Christ, My beloved Son, is able to be present in your hearts and for more time, in this humanity.

I am happy for being able to be here, in this place and at this very moment, together with My children, so that, through My Presence, you can feel the Celestial Kingdom, which comes to meet with you to strengthen your hearts and souls; so that you may continue to be, in this end time,

instruments renewed in Christ, for the concretization of His Redemptive Work, in this time and with this current humanity.

Each time you feel the need, dear children, for purifying your hearts and minds, approach the rivers, the oceans or this small waterfall, to find through it the symbol of reconciliation, of healing, and of union with God.

The water element is in permanent self-giving for the world, and is not deemed by this humanity to have the value it has deserved, since the beginning of Creation. For this reason, My Son, throughout the times and the generations, baptizes with His Spirit, by means of the Sacrament of Baptism and with the gift of the water element, so the forces contrary to evolution present in souls can be dispelled and expelled, and spirits be renewed through this Sacrament, which your Lord has instituted for the permanent renewal of this humanity and future humanity.

I am here today also as the Mother of all the Kingdoms, so that, through them, you may feel the love they silently radiate, and the very deep and intimate healing that your souls can find, by simply drawing close to them.

This will also help, dear children, at least a part of the more aware of humanity, to consider the Kingdoms with the importance they have for Our Lord, and above all, for their presence in the future humanity.

You, as human beings of this surface, could not live on this planet without the Kingdoms of Nature. They also transmute the contrary current and all the action that the humankind of these times generates, transgressing the Kingdoms, as well as each element of Nature. But if your hearts, in simplicity and love, contemplate the Kingdoms with the gratitude they need, many things can be repaired. Great expanses of the Kingdoms of this Nature can be healed and relieved, when humankind contemplates them with love and simplicity.

Simply with this act, great devas and elementals can be led into new spheres of evolution, for the purpose of having an opportunity, still on this planet.

See, dear children, how water, in its permanent self-giving, holds all this information of each of the Kingdoms. Because I remind you once again that water was present first, since the beginning of this planet.

How much it can contribute to the world through its Laws of Healing and of Grace!

Water is also the principal element of communion with Christ, together with wine and bread.

The Rays of My Grace cause sparks of light to emerge, coming from the water element, present in other Universes.

See, dear children, how important water is in this humanity, which without it, could never be physically alive.

Water, lovingly created by God for this humanity and this planet, is not only a physical element; it is an alchemical element, a spiritual science that comes from the Source of Creation.

See also, dear children, how the counterpart of water at a spiritual and inner level, can be found on the planes of consciousness where God the Creator is present.

Is the water of this world correctly esteemed? You and I know that it is not. It is time to consider water with the spirit and gratitude it deserves, because in a future time, the water of life will be lacking. But the souls that are aware in the world will be able to help safeguard this element, so the water of the world not only be salty.

If you radiate love to the water element, you will help its great devas, present in various parts of the world, such as in the great oceans.

The nations of the world could never live without water. And we all know that; but they could never live without its spiritual counterpart, which is what heals, restores and redeems consciousnesses.

I invite you to continue to pray for the Kingdoms of Nature, so they can survive in these times, under the conditions of this humanity, which each day are more serious and outrage the elements God created for humankind as a great offering of love.

I wish to make a last revelation for the Planetary Consciousness. Water, on this physical plane, is the Presence of God, the Living God, who can be close to His children and not only feed them, but also nurture them with His Divine Spirit through the element of water.

Now, before Creation, dear children, recognize the importance of this sacred element, which, if missing in the future, as it already is missing in some regions of the world, will generate a great social inequality, a war for water.

Preserve what God has given you in this incarnation, through the self-giving of this element, so it may be esteemed in the world, contemplated, loved and respected, just as you should do daily.

Each time water is wasted, a debt is generated in the Universe by humanity itself. If you cannot drink of this element, because it may not be pure, gift it to the elements of Nature, to the gardens, the animals, so that they too can be in God, as you are in God through the water element.

Today I want to bring this message to Argentina and to South America, because here there are great reservoirs of water that will serve future humanity. From the south of Ushuaia to the north of South America, God has left a great physical and spiritual treasure here for humanity.

Continue to pray so that the water element can preserve its chastity and purity in the world. Because remember, dear children, that the rest of the Kingdoms of Nature also depend on it for being able to live in this end time.

In the Grotto of Massabielle I left the fount of water open, so that all souls of the world could heal their bodies, close their inner wounds.

Today, through the water from this fount blessed by Christ, My beloved Son, I come to bless it with a special gesture of love, so that souls may avail themselves of it and also be able to heal in this part of the world.

May this water serve to baptize consciousnesses, to heal the wounds of injured bodies.

To again sanctify this element with the effusion of the Spirit of God, we will pray to Our beloved Lord Jesus Christ, so that through this element, He may grant healing for souls, redemption for hearts, freedom for those still not redeemed.

Let us pray to God, dear children, with all the strength of our hearts, as you have done this afternoon, pleasing My Immaculate Heart and allowing Me to pour out My Graces in the most distant places of this world, where souls also saw themselves benefited, as in Argentina.

May this fervent prayer born of your hearts never end, never be over, be inexhaustible and perpetual, so that I can establish a point of Light and of Grace here for the world, which must expand, through your collaboration, to all of this nation.

Let us pray to Jesus, in the humility of the heart and in the devotion of the soul.

I will first pray to God and then we will pray together, dear children, so that the strength and the power of this element, in its constant and permanent self-giving, may reach the souls most in need of liberation, healing and redemption.

Accompany Me at this moment, from the heart, in the plea I will now make.

O Most High God!
Who made Yourself small and alike,
in the eyes of all Your children,
I ask, with the strength of My Soul,
with the Love of My Heart and the devotion of My Spirit,
that You sanctify and consecrate, in the name of Your Celestial Mother,
this blessed and pure element,
so it may serve, help and free those most in need of You,
so that Your Celestial Kingdom may finally be established
in all hearts.
Amen.

Now let us pray to Jesus:

Blood and Water
that flowed out from the Heart of Jesus
as a Fountain of Mercy for us,
I trust in You.
Amen.

And now, dear children, place your left hand on your chest and your right hand stretched out to Me and in communion with the water element, as a symbol of the purification of the Earth and of humanity.

Now from My own Hands receive the Grace that I will offer you, so that healing, the most profound healing may be established in your consciousnesses.

Receive this Grace as a sphere of Light, which the Immaculate Conception brings today from Heaven for Her children.

Now place your right hand over your heart and let us give thanks to God for this Grace received.

I would like the song of your voices to rise to Heaven, so that I may carry this offering of your hearts for the Kingdoms of Nature, for Argentina and for the emergence of the new humanity.

I want you to again sing "Flower of Peace".

I thank you for responding to this important call. And tomorrow I will return here to bless each of you, Argentina and the world.

In the name of the Father, the Son and the Holy Spirit. Amen.
