

Act of Reverence and Love to the Kingdoms of Nature

I wish I could be like a bird
to just praise and sing to God.

I wish I could be like the water of the oceans
to only mirror the Peace of God.

I wish I could be like a tree
that rises up to reach the Kingdom of God.

I wish I could be like a flower
that opens every morning to show its devotion to God.

I wish I could be like a plant
that decorates environments to leave them full of harmony and light.

I wish I could be like a dolphin
that amidst the waves overcomes itself to reach God.

I wish I could be like a sunflower
that opens every day to receive the light of the Sun.

I wish I could be like a crystal
that guards the most beautiful thing it has
in order to express its love for Creation.

I wish I could be like the wind
that blows strong and constant
to reach all corners of the Earth with love.

I wish I could be like fire
to illuminate the days of darkness.

I wish I could be like the land
that tirelessly gives itself to be the womb
that gestates Creation again and again.

I only wish that the trees were not cut down,
to not leave the planet without beings that rise towards God.

I only wish that birds were not hunted
so that the Earth would not be left without beings that fully praise God.

I only wish that the earth would no longer be transgressed with toxins and chemicals
so that humanity would not run out of living food.

I only wish that the oceans were no longer contaminated
so that marine life would not die soon
and the seas could continue to mirror peace.

I only wish human beings were aware
that the planet is our home and that we depend on it to live.

I only hope that all of us will be in communion with the Kingdoms
so that, for a moment, we may feel their constant suffering
and thus we can relieve them, without transgressing Creation.
