DAILY MESSAGE OF MARY, ROSE OF PEACE, TRANSMITTED IN THE CITY OF SANT ESTEVE DE SESROVIRE, CATALUÑA, SPAIN TO THE VISIONARY FRIAR ELÍAS DEL SAGRADO CORAZÓN DE JESÚS

Sphere of Light of the consciousness

Each human being, as a created spiritual essence, carries a Sphere of Light within the consciousness, which holds the Love the Creator gave them from the moment in which they were created.

We call this sphere the Essence or Sphere of Light of the consciousness. It is as important as the life, for it will respond in the future as an experience in each one of you.

This Sphere of Light of the consciousness holds the most positive memories of your existence, as well as the memories of the acts of Love and of Mercy experienced in the school of this planet.

It is this Sphere of Light of the consciousness that your Heavenly Mother comes to care for and protect from Her eternal enemy.

The Sphere of Light of the consciousness is capable of providing an experience of Love that the soul may have lost because of suffering or error.

This Sphere of Light is capable of bringing to spiritual life the gifts held in the Source of Creation, and of radiating them to all the deep nuclei of a being.

The Sphere of Light of the consciousness is the only living memory of what we once were, of what we are and of what we will be, for it can grasp Divine Will, and in this way, provide the human consciousness with the necessary impulses to live a more evolutionary life within the different Laws of the Universe.

This Sphere can unblock a spiritual or inner process which the mind sometimes generates.

The Sphere of Light of the consciousness is capable of reminding us of our origin and our beginning in Creation.

It can do all things.

I thank you for responding to My call!

Who blesses you,

Your Mother, the Virgin Mary, Rose of Peace
