DAILY MESSAGE OF MARY, ROSE OF PEACE, TRANSMITTED IN THE CITY OF SALAMANCA, STATE OF GUANAJUATO, MEXICO, TO THE VISIONARY FRIAR ELÍAS DEL SAGRADO CORAZÓN DE JESÚS

The peace of the heart is something that should never be missing; for without it, which is sublime and profound, life becomes unpredictable and vulnerable.

That inner peace is what you must conquer every day and deeply long for through actions, thoughts and good deeds.

The majority of souls suffer from the absence of peace within themselves and in their lives. In this way, My adversary easily disturbs them and leads them onto other paths, through experiences their hearts have had throughout time.

But with My Heart, dear children, you have had the Supreme Grace of being able to experience that inner state in which everything seems perfect.

Sometimes, the confrontations and tests, which happen day after day and which are stimulated by the art of My enemy, cause this peace, which many consciousnesses had already conquered, to be lost.

On this day, with all this peace which exists in the universe, I descend to bring your consciousnesses the possibility of finding that path again which sometimes, for various reasons, you lose sight of.

Peace is a permanent state of inner contact, and through it, many situations are clarified or dissolved.

In this time, that state of peace is unpredictable, not only for the consciousness experiencing it, but also for the planet.

Peace is not a state of illusion or of happiness; peace is a spiritual expansion of the Wisdom of God in His creatures.

I thank you for responding to My call!

Who leads you on the path of peace,

Your Mother, the Virgin Mary, Rose of Peace
