**WEEKLY MESSAGE OF SAINT JOSEPH, TRANSMITTED IN THE MARIAN CENTER OF AURORA, PAYSANDÚ, URUGUAY, TO THE VISIONARY SISTER LUCÍA DE JESÚS**

Humanity is still transiting the spiritual days of the planetary Lent. In addition to the Lent that they live, and which corresponds to the time of this world in the calendar of the Earth, humanity also spiritually goes through a cycle of Lent.

In this cycle, in a deep and desolate desert, hearts contemplate and glimpse the passion of the planet, however, it will not happen as your eyes imagine or as your minds assume.

The planetary Passion is still unknown to humanity as it is to the universe, and only the Eyes of God, children, which are able to see in the Time of no-time, can perceive the truth of events. So do not suffer for something you have not yet experienced; do not imagine the passion of the planet and worry your hearts about the future of the world and its humanity.

The time of Lent is a time of inner strengthening, in which each one, alone with oneself, will be able to perceive the Divine Presence beyond the superficialities of life.

Each being must stand before their inner desert and know their weaknesses and fears, their miseries and imperfections, but also go beyond and discover that, beyond that which they are and appear to be, there is more. However, children, that which exists within you is only found in the emptiness of the heart and in the persistence of the soul which, despite the drought and the spiritual thirst of the desert, keeps moving to find the Source.

The spiritual period of Lent is a time of solitude in which, no matter how much you seek companionship and external help, you will not find it. Solitude will not calm down within you, for you should not run away from it, but rather go towards it and find out what it wants to tell you, what it points out within you.

Solitude points to a greater and real Presence, to a silence full of wisdom, to a void full of strength. It is solitude which will dictate the desert path and which will be your companion at each step until you are able to realize that solitude is also an eternal companion of the Divine Presence. In solitude, God hides Himself, and through solitude, He waits for you to find Him. Therefore, do not fear it.

Spiritual Lent strengthens your beings so that when you truly set foot on the planetary Calvary, you can raise awareness beyond martyrdom and humiliation, beyond pain and weariness, fatigue and wounds in body and soul. May you walk with consciousness within the solitude that the Divine Presence reveals to you; may you know to be beyond that which is superficial to find the truth in all things.

Therefore, children, value the Lent of this time, value the spiritual Lent that the world is experiencing in consciousness and do not fear to walk through the lonely deserts, the dryness and the emptiness, but rather, dive deep within yourself, drink from the Source of the Living Water that dwells in the solitude and desert of the Heart of Christ and, with Him, discover what it is to walk the path to be New Christs.

You have my blessing for this.

Your father and friend,

The Most Chaste Saint Joseph.
