**Daily Message of the Virgin Mary, Rose of Peace; transmitted in the Olmué Commune, Marga Marga, Valparaiso Region, Chile, to the visionary Friar Elías del Sagrado Corazón de Jesús**

Dear children,

Today I come with the primary intention of carrying out the pilgrimage mission to Asia and Oceania; because if this takes place in that region of the world, many situations will be avoided and others repaired.

I need each prayerful being to become aware that each step taken from now on will help in building the next stage of spiritual and inner work in humanity.

As Mother and Guide of souls, what I need, dear children, is that the steps I ask you to take at this moment, so this mission is concretized, are not only material, but are also inner and spiritual.

This will enable the inner universe of each being to be prepared to take on this next mission with a different state of consideration and consciousness; because what is most important, children, is what will begin to be generated and gestated from now on. Further ahead, the inner, spiritual and material conditions will have broad repercussions so that everything can be accomplished, as has been foreseen by the Celestial Father.

To experience a mission in the East is not the same as experiencing a mission in the West. In spite of humanity being the same, biologically speaking, other needs, lacks and emergencies must be provided for from the moment in which My missionaries place their feet on this region of the planet. Thus, I say again, My beloveds, that everything you may do will have repercussions in the future so the mission can take place.

Your Heavenly Mother is not speaking of being authoritative or severe; your Mother is referring to the importance of placing more love and awareness in all that surrounds you daily. Correcting this, the new mission will be built and the doors to Divine Providence will be open. In this way, all will move forward under the ardent aspiration of My Immaculate and Motherly Heart.

As from now, I will thank you for being attentive about yourselves so a new victorious mission, wholly in the Lord, can be built.

I thank you for responding to My call!

Who blesses you,

Your Mother, the Virgin Mary, Rose of Peace
